#### **MATHEMATICS**

Do the following activities on art sheets and comment sheets

- (a) To find the H.C.F. of two numbers (a,b) based on Euclid's division lemma.
- (b) To obtain the conditions for number of solutions/inconsistency of a pair of linear equations in two variables.
- (c) Complete R.S. Agarwal exercises of all chapters covered till date.

#### **SCIENCE**

1. Complete the assignments given in the google classroom for each of the subjects-Physics, Chemistry and Biology.
2. Complete the practical notebooks for each of the three subjects - Physics, Chemistry and Biology (as discussed in the class).

#### **SOCIAL SCIENCE**

'Explore your rights as a consumer'

Ask your parents to buy a product for you from the market or look at the product that has been recently bought in your house like groceries, clothing and durable goods like Car, T.V. and Phone etc.

Make a list of the benefits you can get (discounts, offers, warranty etc) and the problems that you can face in using these products (safety hazard, poor quality, not durable, etc.)

Identify and write down all the six consumer rights that you can use in context to that product.

#### **COMPUTER**

Design a MS PowerPoint presentation comparing 2G,3G & 4G technology also briefly explain 5G technology.
