Attended by : **Teaching Staff (Grades VI-XII)**
Platform : **Webex**

Details : CBSE has collaborated with UNICEF to launch an online portal for career counseling for students of Grades IX- XII in all the schools affiliated to the board. A training session was organized by the Central Board of Secondary Education on 23rd September 2021 for teachers and counselors to enable them to guide their students for their better future. The hosts for the day were Ms Parmita Sarma and Mr. Praveen Kumar. First, the online gathering was made aware of the significance and essence of career guidance, systematic career guidance process and the salient features of the portal. The hosts also apprised the online trainees about the various available career options, courses, and scholarships with the various streams (subjects opted). It was also shared that a teacher will be selected from each school for training through digital sessions and become a counselor after which the teacher will guide the students on their career queries. The portal will be a great help for students especially for girls to gain information and choose the most appropriate career for themselves. At the last the teachers were asked to fill a feedback form that contained a questionnaire related to the portal, and how the teachers will rate the training session. A website was also shared on which we may write any query to get a reply. It was of course a beneficial session for creating awareness about the CBSE Career Portal to guide the students to make their dreams come true.

Event : **3030 Eklavya - 1st session**
Topic : **Neeraj Chopra and laws of motion**

Platform : **YouTube Live Session**
Attended by : **Science and Math Teachers**

Details : 3030 Eklavya organized the first session on the topic – Neeraj Chopra and Laws of Motion. Six to eight Science and Maths teachers got registered themselves at ccl.iitgn.ac.in/eklavya for the paid online event. The resource person was Professor Manish Jain from Center for creative learning, IT Gandhinagar. This event was a collaborative effort of IIT Gandhinagar and CBSE to spice up the monotonous curriculum. He emphasized on the fact that in the online classes during the pandemic, students have lost interest in studies. So, in order to bring a sparkle in the eyes of the kids and to add life to the online lectures, certain simple and live experiments can be conducted.

He explained the first law of motion based on Galileo's experiment, presented a number of videos showing examples from our everyday life based on the law of inertia. He also showed a few live experiments to demonstrate the first law of motion. The most interesting part was when he explained what physics was involved in Neeraj Chopra's victory in the Olympics. He explained that the reason was that the javelin was thrown approximately at an angle of 36 degrees and that was the trick to win. He also explained the physics behind a few facts like why rockets are usually launched in the direction from West to East etc.

There were live questions being asked during the session, which had to be answered at the same time at itempool.com/ccl/live. A link was provided to submit the homework. It was marked that only after the homework is submitted after every session that attendance of the person will be marked and if he /she has applied and paid for the certificate, then only the person can receive certificate for the same. The next session will be based on the second and the third laws of motion.
