HOLIDAY HOMEWORK (2024 - 2025)

CLASS – VIII

The holiday homework assigned focuses on sustainability, encouraging students to engage in activities that promote environmental awareness and responsible practices that will enable our students to gain valuable insights into sustainable development and contribute to a greener future for Kanpur.

Exploring Waste Management

Assignment Tasks:

Research Assignment of Waste Reduction Plan

1. Develop a waste reduction plan for your household or school. This could include strategies such as reducing single-use plastics, composting organic waste, and promoting recycling.
2. Create a detailed action plan outlining specific steps, responsibilities, and timelines for implementing your waste reduction initiatives.

Reflection Essay

Write a reflective essay discussing your experiences and insights gained from completing the waste management tasks. (150 words).

Submission Details

1. Create a multimedia presentation (eg., slideshow of 10 slides) showcasing your waste management journey, including photos, videos.
2. Submit your completed assignment on Google Classroom by 20th June 2024.

Remember to be creative, proactive, and environmentally conscious as you tackle these waste management assignments. Your efforts can make a significant difference in promoting a cleaner and healthier environment for all.

Happy Holidays!
