## Weekly planning overview

Session: 2026 - 2027

Subject : Economics Class : XI No. of periods : 11

| Period                                    | Topic/s to be covered in the classroom                                                                                                                       | Homework | Status (Yes/No)<br>(Reason if No) |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-----------------------------------|
| <b>WEEK 27 : 05/10/2026 to 10/10/2026</b> |                                                                                                                                                              |          | <b>Period Count: 5</b>            |
| PD1                                       | One variable and two variable time series graph, advantages, and practice examples                                                                           |          |                                   |
| PD2                                       | Theory of supply, concept of supply and stock, supply schedule, construction of the graph                                                                    |          |                                   |
| PD3                                       | Supply curve and its slope- individual and market                                                                                                            |          |                                   |
| PD4                                       | Supply function, determinants of supply, Law of Supply- Tabular presentation, assumptions, Movement along the supply curve-graphical presentation and causes |          |                                   |
| PD5                                       | Extension and contraction of the supply curve, causes and diagrammatic explanation; increase and decrease in supply-causes and graph                         |          |                                   |
| PD6                                       | <b>Second Saturday</b>                                                                                                                                       |          |                                   |
| <b>WEEK 28 : 12/10/2026 to 17/10/2026</b> |                                                                                                                                                              |          | <b>Period Count: 6</b>            |
| PD1                                       | Change in the supply due to changes in fixed factors technology, price of its own good and related, GST and supply curve; subsidy and SS curve               |          |                                   |
| PD2                                       | Price elasticity of supply, explanation, measurement using percentage method-numerical,                                                                      |          |                                   |
| PD3                                       | the shape of the supply curve and elasticity of supply-graphical presentation, factors affecting elasticity of supply.                                       |          |                                   |
| PD4                                       | Forms of Market (Perfect Competition)                                                                                                                        |          |                                   |
| PD5                                       | Market equilibrium under perfect competition and effects of shift in Demand and Supply                                                                       |          |                                   |
| PD6                                       | Market equilibrium under perfect competition and effects of shift in Demand and Supply                                                                       |          |                                   |
